International Peanut Conference 5
International Peanut Conference 2005
9 – 13 January 2005
Kasetsart University, Bangkok, Thailand

Overview

In this conference, experienced, scientists and marketing personnel from Asia, Australia, Pacific, South and North America, Europe and Africa, will present developments in peanut production and utilization technologies from their unique perspectives. The conference program will be designed to give delegates an insight into technology application in worldwide, in order to enable the successful development, production, marketing of peanut products for the improvement of health and quality of life. The potential for information exchange will be explored fully, as well as the prospects and challenges for technology transfer and know-how between the delegates.

The following topics are proposed to be covered among others:

- ❖ Economics and Marketing
- ❖ Production and Breeding
- ❖ Post Harvest Handling
- ❖ Aflatoxin
- ❖ Health, Nutrition, Functional Foods and Peanut Allergy
- ❖ Peanut Utilization
- ❖ Impact Assessment

Speakers

Keynote and plenary speakers will be announced in the Second Circular.

Language

The official language of the conference will be English.

Conference Format

The scientific program will consist of plenary sessions featuring special lectures by invited world renowned scientist speakers and poster presentations.

Conference Venue

This conference will take place in Kasetsart University, Bangkok, Thailand.

Accommodation

A wide range of conference accommodations is available and will be announced in the Second Circular.

Call for Papers

Prospective authors of poster presentations are invited to submit a one-page abstract, in English, according to instruction outlined in the Second Circular. To be considered for presentation at the conference, a hard copy and electronic version are required. The deadline for abstract and paper submissions is 12 November 2004.
